

ABDUL RAZZAQUE ANSARI

Aspiring IT Professional · B.Tech IT Student · Cybersecurity Enthusiast · Blockchain & Web3 Developer

a.razzaq8097@gmail.com · +91 72081 63185 · abdulrazzaque.vercel.app · github.com/coderrazzaq · LinkedIn

PROFESSIONAL SUMMARY

Driven by a deep interest in technology and problem-solving, I am building my career in Information Technology with a focus on programming and cybersecurity. Currently pursuing B.Tech in Information Technology at Shree L. R. Tiwari College of Engineering, after completing my Diploma in IT from Vidyalankar Polytechnic (2023–2026). Skilled in Python, Java, C, C++, HTML, CSS, JavaScript & Linux, with strong interest in software development. Exploring Cybersecurity & Ethical Hacking (vulnerability assessment, security analysis) and passionate about Blockchain & Web3 — Solidity, Smart Contracts, DeFi, NFTs, and decentralized applications, including the intersection of AI × Blockchain. Hackathon participant with a passion for building innovative, real-world solutions. Open to internships, projects, and learning opportunities.

EDUCATION

B.Tech in Information Technology

2026 – Present

Shree L. R. Tiwari College of Engineering

Focus on programming, software development, and cybersecurity. Building secure, real-world projects at the intersection of AI × Blockchain.

Diploma in Information Technology

2023 – 2026

Vidyalankar Polytechnic

Strong foundations in programming fundamentals, web development, Linux, and software engineering principles.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, HTML, CSS, Solidity

Frontend & Tools: React, Tailwind CSS, TypeScript, Git, Linux, Responsive Design, UI/UX

Blockchain & Web3: Smart Contracts, DeFi, NFTs, dApps, ethers.js, Avalanche, opBNB, Base, ENS

Cybersecurity: Vulnerability Assessment, Ethical Hacking, Security Analysis, Secure Coding

Other: AI Integration, Graph Databases (TigerGraph), Supabase, Framer Motion, Problem Solving

FEATURED PROJECTS

TigerGraph Fraud Investigation Unit

End-to-end fraud investigation platform with docket-to-dossier workflow. Graph evidence analysis, pattern detection, prior case matching, and recommendation engine with approval routing.

TigerGraph · Graph Database · TypeScript · Tailwind CSS · Fraud Detection

ChainAgent — Decentralised AI Agent Marketplace

Built for ETHMumbai. Decentralized AI marketplace where sellers proxy API keys and buyers pay per query in USDC. Features x402 payment lifecycle, ENS subnames, and instant Base Sepolia settlements (anonymous, no KYC).

x402 Protocol · ENS · Base Sepolia · USDC · AI · Web3

AI Trading Agent

Intelligent blockchain companion that understands natural language commands, executes multi-chain trades, and manages digital assets with enterprise-grade security.

AI · Multi-Chain · DeFi · Natural Language · Trading · Security

opBNB AI Assistant — bnb-hackathon-bombay.vercel.app

Premium AI-powered blockchain assistant on opBNB (ultra-low gas, 4,000+ TPS). Secure auth, auto wallet generation, and intelligent query assistance with glassmorphic UI. Shortlisted.

TypeScript · React · opBNB · Supabase · ethers.js · Framer Motion · Zustand

Avalanche AI Blockchain Assistant — avax-ai.vercel.app

AI-powered assistant for Avalanche network. Natural language commands to send AVAX, create tokens, mint NFTs, and perform blockchain operations. Shortlisted at Avalanche Hackathon, Mumbai.

TypeScript · React · Avalanche · AI · IPFS · Web3 · Tailwind CSS

Urbania Welfare Community Center — hackathon-donation.netlify.app

Non-profit community website featuring welfare programs, educational resources, and support services.

HTML · CSS · JavaScript · Responsive Design

Fitness Club Platform — fitnessclub-final.netlify.app

Interactive fitness platform with workout programs, quiz, chatbot, and body transformation tracking.

HTML · CSS · JavaScript · Interactive Design

ACHIEVEMENTS & HACKATHONS

- **Selected Participant – BNB Hack Bombay:** Built decentralized AI-powered solutions on BNB Chain / opBNB in collaboration with industry leaders.
- **Selected Participant – Avalanche Hackathon, Mumbai:** Developed innovative Web3 solutions using Avalanche ICM and EERC with industry experts.
- **ETHMumbai:** Built ChainAgent — decentralized AI agent marketplace with x402 payments and ENS subnames.
- **Smart India Hackathon (SIH):** Team shortlisted to participate, showcasing innovation and problem-solving skills.
- **Multiple Hackathons:** Contributed to projects including gym/fitness platforms and community welfare websites.

ADDITIONAL LEARNING

Cybersecurity & Ethical Hacking (Self-Learning, 2024 – Present) — Vulnerability assessment, security analysis, ethical hacking workflows, Linux tooling, and secure coding practices.

Blockchain & Web3 Development (Hands-on Projects & Hackathons, 2024 – Present) — Solidity, Smart Contracts, DeFi, NFTs, dApps, and AI-powered Web3 solutions.
